MORE THAN SOLAR

**MOREDAY, Lean Manufacturing Expert at
New Energy Product**

President's thoughts

As we look back on 2020, I am proud of how we adapted to the challenges that came our way. We took care of our employees, provided for our customers and partners, and prospered along the way.

We are optimistic about our resilience, flexibility, and solid business processes, reflecting the best in sustainability.

Sustainability is at our core at MOREDAY and our purpose remains to advance a sustainable future for all. As part of our commitment, we released our Reports on the development of the photovoltaic field in the next five years and better sustainable approaches. As we work towards an equitable energy future for all, we are aware of the importance of mobilizing the world to reduce the carbon footprint and electrify the planet.

We will continue to work hard to deliver high quality products that produce clean energy, save our customers money, and provide them with complete energy independence. Looking forward in 2021, we are excited about the strength in worldwide demand for solar, the ramp of our solar systems and upcoming new products, the higher levels of customer service, and our ongoing digital transformation efforts.

As always, I thank our employees, customers, partners, and shareholders for their continued support.

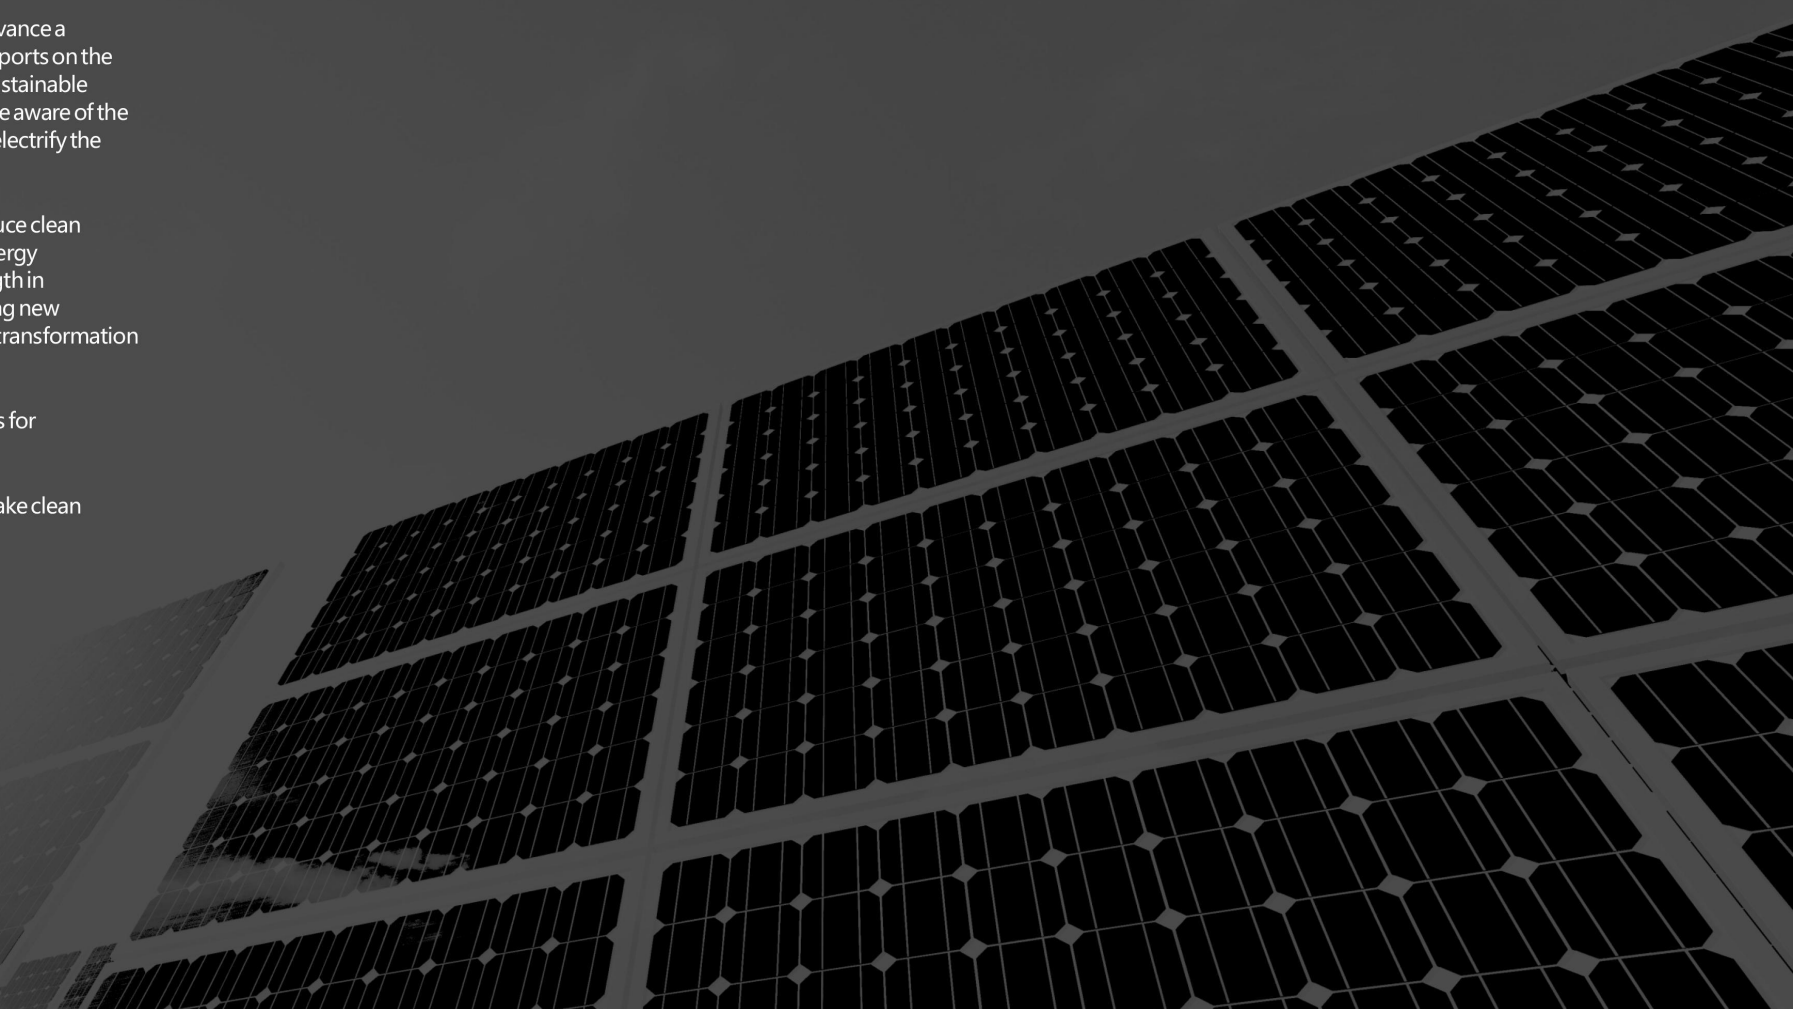

we will continue with our mission to deliver technology solutions that make clean energy affordable, reliable and accessible to all.

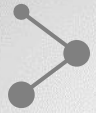

To be continued, More than solar

Dedao Huang
President and CEO

Oct.20, 2021

Company Profile

MOREDAY was established in 2009 at the beginning

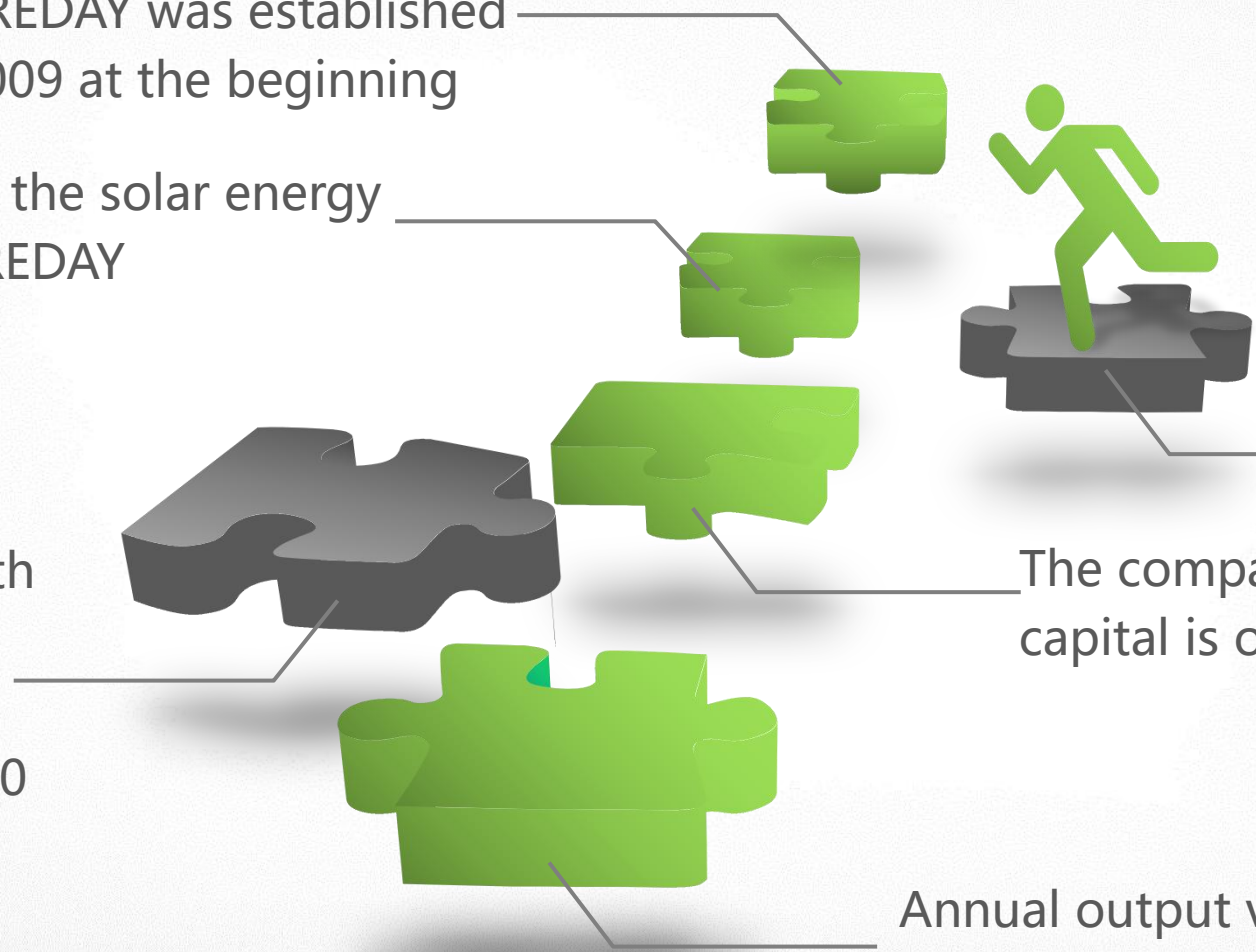

Established the solar energy brand MOREDAY

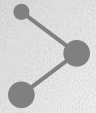

An industrial park with intelligent R & D and production covering an area of over 10,000 square meters

Annual output value reaches 100 million

The company's registered capital is over 100 million

The company has more than 100 employees

Core Advantage

MOREDAY

High-Tech Enterprise;
Provincial Enterprise Research and
Development Center,
Provincial Green Enterprise,
Product obtained tuv certification

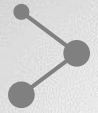

Fully passed ISO9001, ISO
14001 international system
certification

Launched a number of technical
cooperation with universities and
research institutes

Now has the experience of
working with Fortune 500
customers.

Annual output value reaches 100 million

**As of 2020, obtained 12
invention patents, 58 utility
patents, 7 appearance
patents**

History

2013

The annual output value reached **20 million** , and the construction of the power station project started

2018

The company's cumulative project installed capacity reached **2GW**

2009

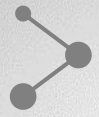

Mindian Electric Co., Ltd. founded(the predecessor of MOREDAY Group)

2016

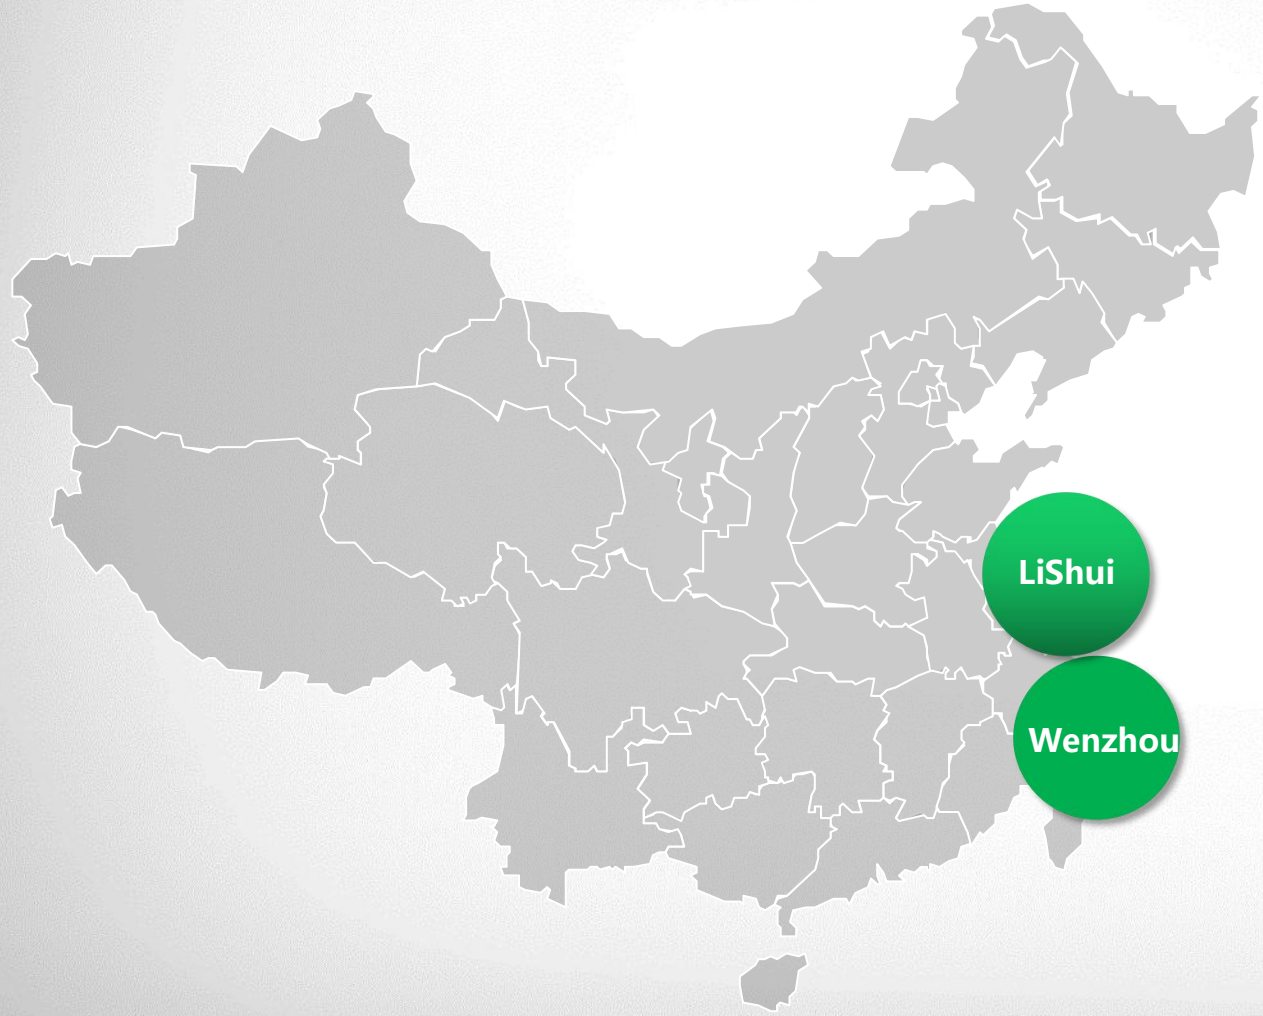

The company became a partner of State Grid and China Southern Power Grid

2020

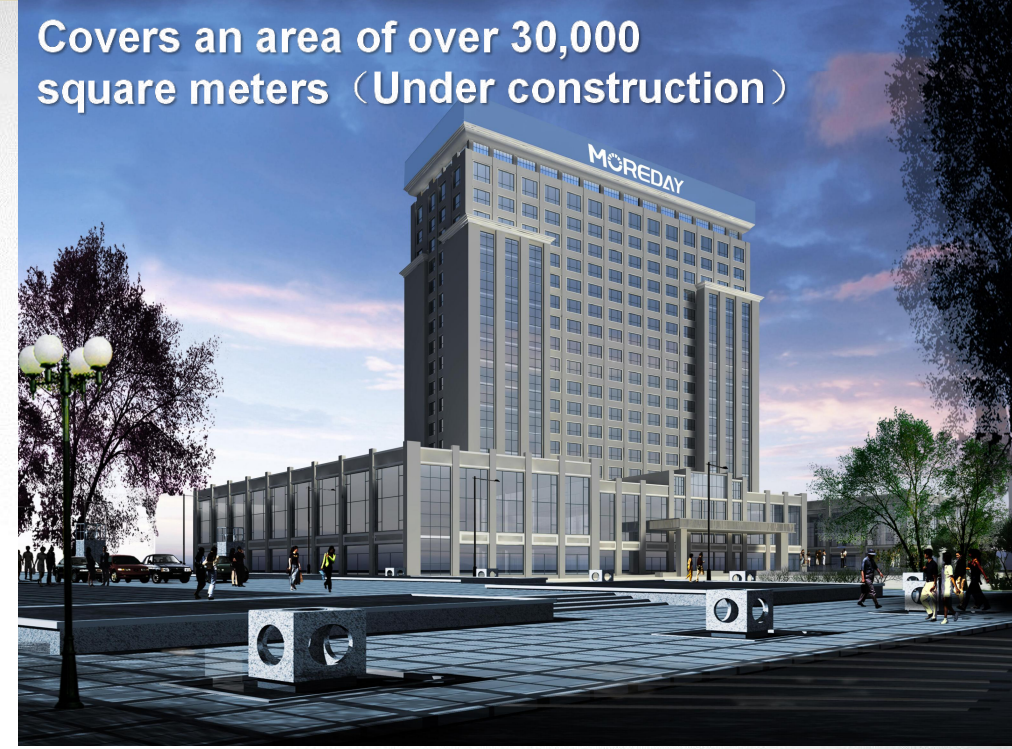

The company's output value reached **100 million** , and the layout of overseas stations

Production Base

Covers an area of over 30,000 square meters (Under construction)

Covers an area of over 10,000 square meters

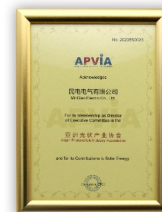

Global offices

PARTENERSHIP

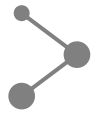

AWARDS

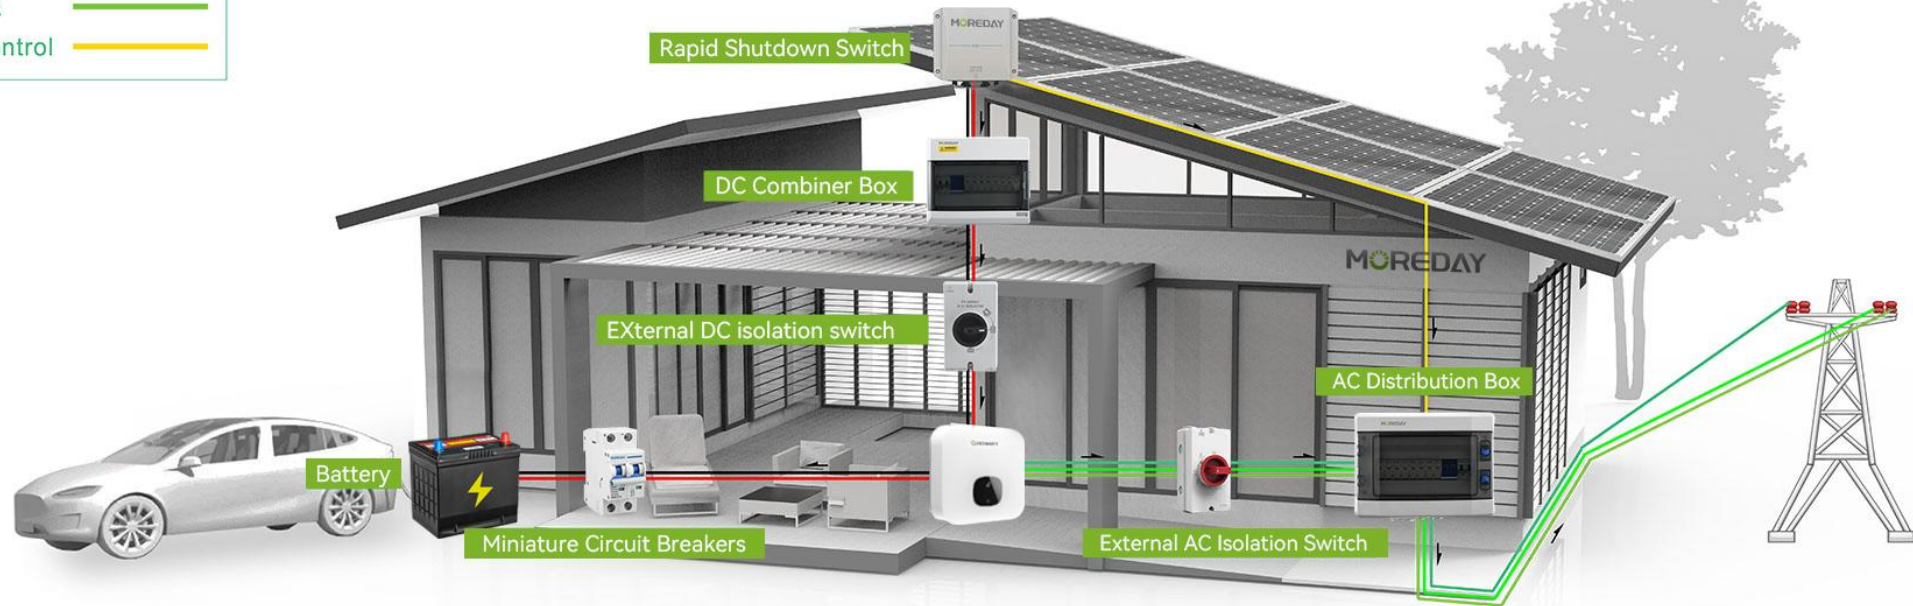

- Member of Asian Photovoltaic Industry Association
- National high-tech enterprise
- Well-known brands in China's photovoltaic industry in 2019
- Caring for employees and caring enterprises in 2020

- 2019、2020 SNEC Megawatt jade Award
- 2020 Outstanding Photovoltaic Enterprise
- Chinese technology-based SMEs
- Zhejiang Promise-keeping 3A Enterprise

Industrial, commercial and household solar system products

MOREDAY

Customized Products for solar system

- **Safe, durable and reliable:** Excellent performance of all series to ensure the safety of solar system ;
- **Aesthetic model and excellent home furnishing:** a full range of light colors, making appearance more outstanding ;
- **One-stop customization and rich products:** One-stop solution, convenient selection, complete specifications, to meet different needs;
- **Professional team and full service:** Excellent team combination, quick response ;

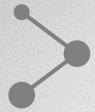

Solar DC system accessories products

Protect circuit safety and system operation

- **Aesthetic model:** the entire industrial design, Minimal but not simplify;
- **Excellent performance:** stand out from the same level of products, effectively protect the circuit;
- **High-quality material selection:** panel area is ABS engineering plastic; Selected high-quality copper parts;
- **Green earth:** using environmentally friendly, recyclable materials;

Isolating switch series

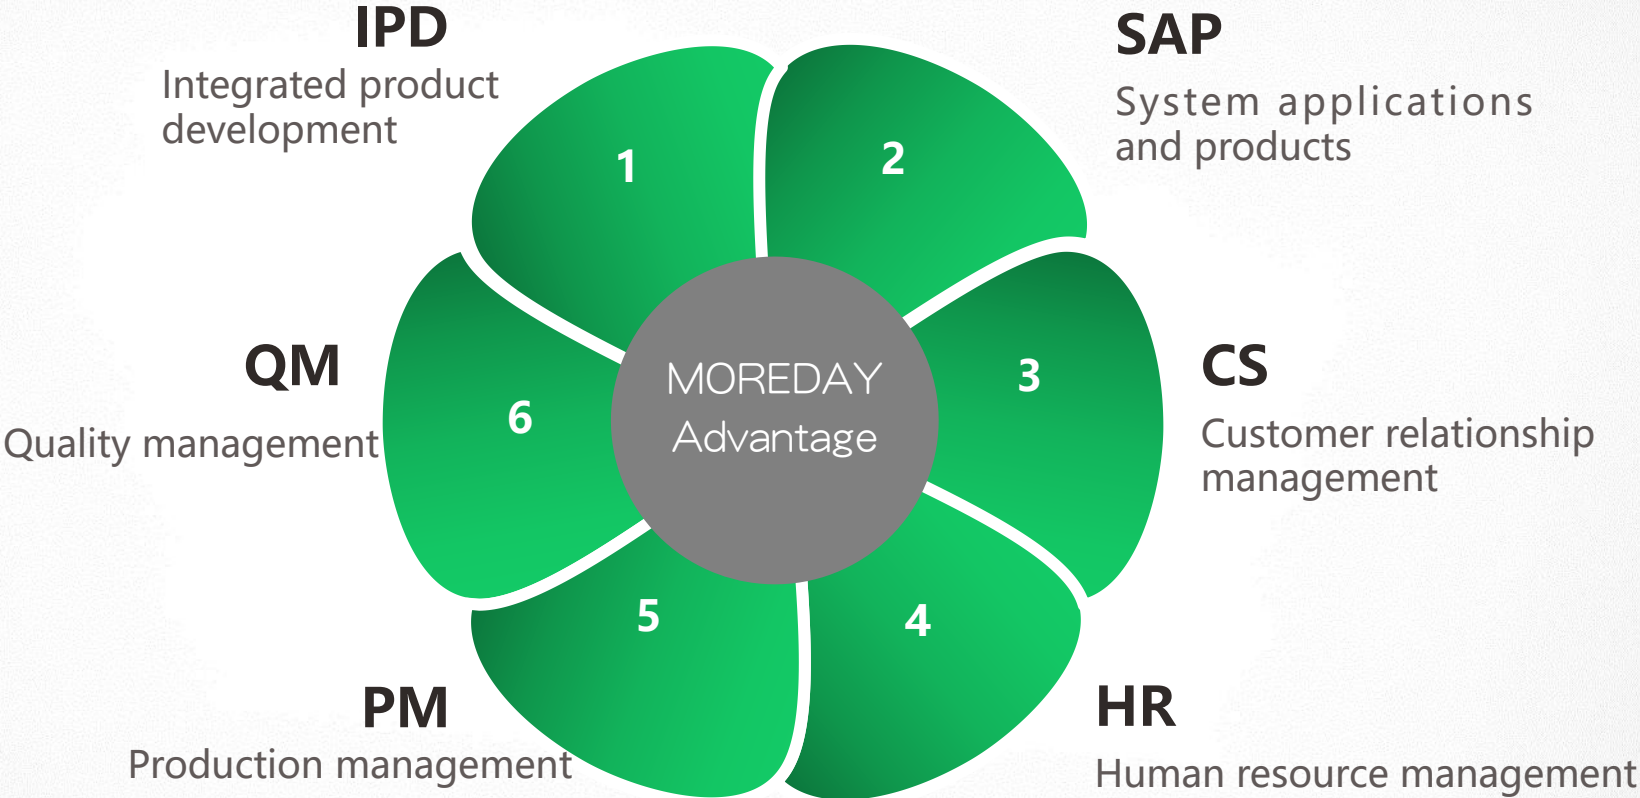

Meets Brazilian standards

MOREDAY

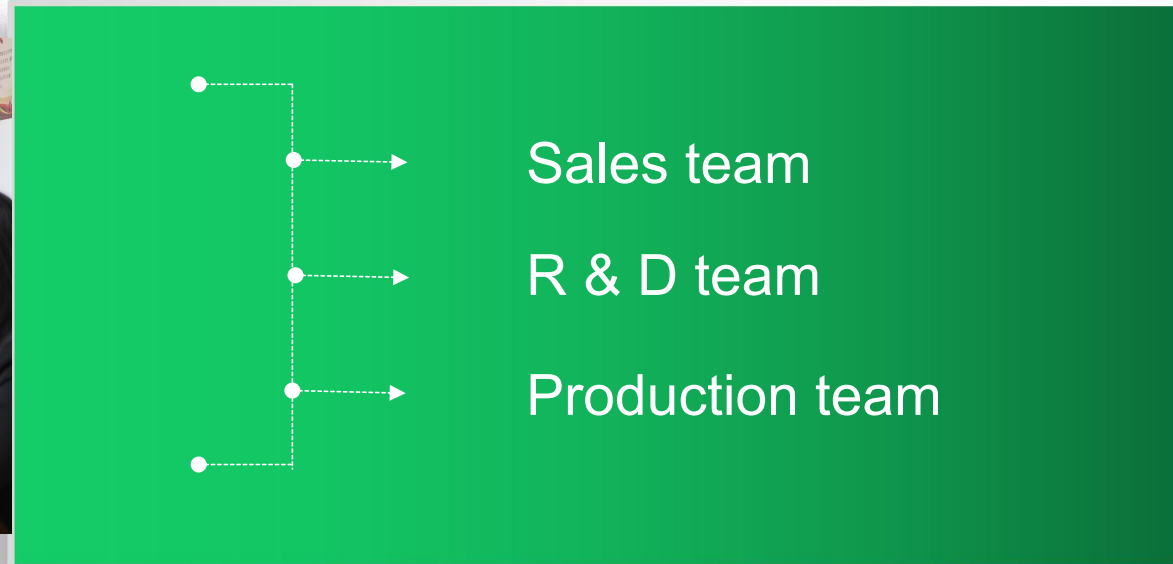

- **Safe and reliable:** Can effectively cut off the current, Protect the safety of the solar system;
- **Complete certification:** Products have passed multiple testing institutions and laboratories
- **Stability:** Products continue to operate stably and efficiently, and has been well received by customers

Deep Change and International Integration

Major Team Composition

We focus on the production and sales of solar products; focus on providing customers with the most cost-effective products

For customers' technical problems and special requirements, we can quickly make countermeasures and product solutions.

Continuously increase research and development and equipment investment

The company continuously introduces advanced intelligent product research and development equipment in the industry, increases investment in software and hardware in research and development, inspection testing, and trial production. Under the guidance of the idea of zero accidents, it eliminates all unqualified products from leaving the factory. We believe this is responsible for customers and is even more responsible for ourselves.

Introduction of Main Centers, Workshops and Production Equipment

Testing Center

Punching Workshop
